Issues & Recommendations

Severity	Category	Issue	Recommendation
CRITICAL	headings	Missing H1.	Add exactly one H1 that matches page intent.
WARNING	meta description	Missing meta description.	Add 120–160 char meta description with keyword + CTA.
WARNING	canonical	Canonical tag missing.	Add <link rel="canonical" href="..."> to avoid duplicate URL issues.
WARNING	headings	No H2 headings found.	Add H2s for sections to improve readability and SEO structure.
WARNING	structured data	No JSON-LD schema found.	Add Organization + WebSite + Breadcrumb + Article/Product schema where relevant.
WARNING	performance	Render-blocking scripts found (1).	Use defer/async and remove unnecessary scripts.
WARNING	content	Low content volume (~193 words).	Add more useful content; thin pages struggle to rank.

Severity	Category	Issue	Recommendation
GOOD	title	Title length looks fine.	Keep it unique per page.
GOOD	ai readiness	llms.txt detected.	Keep it updated with key sections and canonical URLs.
